OFFICIAL VOTE IN

THE NEXT STATE LEGISLATURE WILL BE DIVIDED

GRAVES MAJORITY 668

The Democrats Elected Eleven Members of Congress, the Republicans Five.—Lamkin Lost by 1,109.

Jefferson City, Nov. 20.—Judge Selden P. Spencer, Republican, defeated Joseph W. Folk, Democrat, for United States senator by a lead of 36,683 votes. Spencer carried the state outside of St. Louis by 893 and his St. Louis plurality was 35,790.

Judge Graves, Democrat, defeated Judge James T. Neville, Republican, 668 votes for judge of the supreme court.

Prof. Sam A. Baker, Republican, defeated Uel W. Lamkin, Democrat, for state superintendent of schools by 1,109.

The total vote on the state ticket follows:

For United States Senator — Folk, 265,997; Spencer, 302,680. For supreme judge—Graves, 286,853; Neville, 286,185. For state superintendent of schools—Lamkin, 285,648; Baker, 286,757.

The Democrats have elected eleven members of congress and the Republicans five. There were some close shaves in the congressional races. In the Seventh District, Major, Democrat, was elected over Salts, Republican, by only seventy-eight votes. In the Eighth District, Nelson, Democrat, won over Gentry, Republican, by 193. In the Sixteenth District, Ruby, Democrat, was elected over Shelton, Republican, by 170.

Other Democrats elected to congress are: Romjue, First District; Rucker, Second District; Alexander, Third District; Booher, Fourth District; Bland, Fifth District; Dickerson, Sixth District; Clark, Ninth District, and Igoe, Eleventh District.

The Republicans elected these congressmen:

Essen for the short term in the Tenth and Newton for the full term; Dyer, Twelfth; Rhodes, Thirteenth; Hayes, Fourteenth, and McPherson, Fifteenth.

Folk led his ticket in eight counties —Camden, Douglas, Howell, McDonald, Mercer, Newton, Putnam and Stone.

Judge Graves for judge of the supreme court, received 20,856 more votes than were cast for Folk, and 1,205 more than were cast for Lamkin. Lamkin polled 19,651 more votes than Folk.

The state legislature will be divided, the Democrats retaining control of the senate while the Republicans control the house. The senate evidently will stand twenty Democrats and fourteen Republicans, and the house seventy-five Republicans and sixty-seven Democrats.

AIRPLANES ACROSS OCEAN.

Special to The Democrat-Forum.

Paris, Nov. 20.—British aviators in Paris assert that the Atlantic has already been crossed by airplanes, although the information was kept a secret during the war. They declare the machines of the Handley-Page type flew from New Foundland to Ireland. There is no official confirmation of this statement.

Many breeders, says the Kansas City Star, disposed of their herds after America entered the war, due to their inability to keep their herdsmen, but now that prospects of early and permanent peace are in sight, there is a wild scramble for good registered cattle and all sales the country over are being largely attended.

FOURTH LOAN WAS BIGGEST

Greatest War Loan of Any Government Oversubscribed 16 Per Cent.—Fifth Loan in Spring.

Washington, Nov. 20.—Total subscriptions to the Fourth Liberty Loan were $6,989,047,000, the treasury department announced last night, after final tabulation had been completed. The over-subscription of $989,047,000 was 16.48 per cent. Every federal reserve district exceeded its allotted quota.

This makes the Fourth Liberty Loan by far the greatest war loan ever floated by this or any other government. For the fourth consecutive time in the last eighteen months of war the American people have given more than the government asked to finance the war program. Including the four Liberty Loans and war savings, the nation has raised $17,852,000,000 in popular loans, and this does not take into consideration over-subscriptions which were not accepted.

Bonds of the fifth war loan, to be offered probably in the spring, will be of short maturity, Secretary McAdoo announced today. This was interpreted as meaning five years or less. The secretary said it is impossible now to predict the size or time of flotation of future bond issues, necessary to cover the remaining expenditures growing out of the war, but added that it is "entirely clear that the moment had come when the interests of the government and the country would be best served by the issue of bonds of short maturities and that would be the policy of the treasury."

RED CROSS TO CALL THE ROLL

Christmas Membership Drive Will Occupy Week of December 16-23. Committee Getting Ready.

Maybe you were missed by the Liberty Loan committee, or perhaps you neglected to give to the United War Work Fund and still feel a patriotic desire to keep on doing your bit. There will be other opportunities, and you'll be summoned to respond to "roll call" by the Red Cross during the week of December 16-23. It's a month away yet, but lest you forget, the Christmas "roll call" will be undertaken in an effort to enlist the support of every man, woman and child in America. It's a big job, but the Red Cross is equal to it. The coming campaign is for members more especially than for money.

Membership dues are divided into several classes with annual members paying $1, magazine members $2 yearly, contributing members $5, sustaining members $10, life members $50 and patron members $100.

Joseph Jackson, Jr., is district chairman in charge of the work in Atchison, Nodaway, Gentry, Worth and Harrison counties; Roy J. Curfman is in charge of the "roll call" in Nodaway county. The township managers will be announced in a few days.

WILL ASK NEW LAWS

GARDNER TO URGE MONUMENTS TO SOLDIERS AND PERSHING

MEMORIAL TO WILSON

Appropriation for Home Guards and Council of Defense Woman Suffrage and Loyalty Measures Sought

Jefferson City, Nov. 20.—Governor Gardner has outlined his legislative program for the 1919 session of the state assembly. Two years ago the governor drove through his pet legislative hobbies, such as the law creating the tax commission now under fire by vigorous "trading" in state appointments. At the coming session, with the Republicans in control of the Missouri house and the Democrats in control in the senate, it looks as if all legislation, no matter what its source, will have to have merit to win through the two branches. The feeling seems to be both parties will be on their mettle in anticipation of the 1920 elections, and that the legislative leaders will be careful to cull out obnoxious measures as a matter of partisan safety.

Governor Gardner said today the state does not need additional revenue, and for that reason he will not ask for legislation along that line.

"The state's finances are in splendid shape," he said. "Next month the last ½ million of the $2,025,000 borrowed at the beginning of my administration to clean up the state's deficit will have been paid back."

Neither is any legislation regarding the penal institutions of the state required, in Gardner's opinion "the penitentiary being self sustaining," as he puts it. The state prison is making money, but stories coming from the penitentiary say the convicts are driven at top speed in the prison shops to earn enough money so that state assembly will not have to be asked, as it always has been by other administrations, to make up a deficit in operating expenses. In other years prison contractors imposed merciless tasks upon the prisoners.

Now the state is doing the driving and getting the money the convicts earn. It looks like a distinction without a difference.

According to the governor, the revenue measures passed in 1917 are yielding such great returns that the public schools of the state last year received $360,000 more than in any other year before, while next year they are slated for a full million dollars more. Allowance to Missouri University and the state normal schools also will be boosted in 1919, if Gardner's plans carry through the legislature, he said.

In the new legislation sought by the governor will be appropriations sufficient to spend $25,000 each on monuments in honor of the 135,000 Missouri boys who served the nation in the war, General Pershing and President Wilson. He also will ask for enough money to give every Missouri soldier and sailor a medal in expression of the state's gratitude and a law permitting soldiers and sailors to vote at all primary and general elections.

The governor's legislative program also includes these features: Proper appropriations for the home guard units; recognition and appropriations for the Missouri Council of Defense, which has been operating on a borrowed $100,000; a change in the state legislation preventing foreign born citizens from voting until they have received their final naturalization papers; a loyalty law to enable the state to assist the federal government in prosecuting disloyalty if there should be another war; a "work or fight" law to cover the same possibility; a constitutional amendment for woman's suffrage; a workmen's compensation act; a children's code along the line advocated by the national welfare league as mentioned in The Star last Friday, and a revision of the civil and criminal code.

Governor Gardner also believes the legislature should give the people of the state an opportunity to vote on the question of a constitutional convention at which a modern constitution might be written to replace the ancient constitution now operative. In a new constitution the governor would separate the state's sources of revenue, giving the counties and cities all the income from personal and real estate taxes, while the state received the taxes from franchises, incomes and inheritances.

PLAN CELEBRATION

COM'L CLUB DIRECTORS DISCUSS HOMECOMING FOR SOLDIERS

WOULD ERECT MEMORIAL

An Effort Also Will Be Made To Secure Cannon and Other Souvenirs of the War.

That a fitting celebration be prepared on the return home of the Nodaway county boys who have been fighting the Hun in Europe and helping to win the war, was the unanimous opinion of the directors of the Commercial Club, at the regular weekly luncheon last night. The erection of a memorial in honor o fthe men who gave their services to the nation and in memory of those who will not return was also discussed and while no decision was arrived at, whatever is the final decision of the people will have the support of the members of the club.

Plans for the celebration when the boys come home will be worked out following suggestions which may be made by the public and will be held at a date to be decided on later.

The club directors will also make an effort to secure through some of the men in service souvenirs of the war in the shape of cannon and other field pieces.

TO ROUT THE ARMY LOUSE

"Cootie" Found To Be Carrier of the Trench Fever and Other Diseases Are Due To Go.

Paris, Oct. 28.—(By Mail).—The American army in France is to be the most sanitary in the world Since the louse has been unbearded as the carrier of trench fever and other investigation has proven that scabies—the seven years itch of Bible fame—and other skin diseases are conspicuously reduced by cleanliness, it has been decided that clean underclothes and frequent baths will make the Yanks immune from many of the ills common to the soldier in France. Hence General Pershing has ordered that his army be equipped with efficient facilities to insure every man in the army a change of clothing and a bath at least and, if necessary, twice a week.

The soldiers, back from the front line, are received in squads. They disrobe and turn in their clothing. Then they spend half a minute under a hot shower, half a minute under a cold one, two minutes soaping their bodies and then another half a minute under a warm shower for rinsing. They emerge to receive clean underwear, sox and shirt and, if necessary a clean uniform. The whole process takes three and one-half minutes plus time for dressing and undressing.

The underwear the men leave when entering goes to the laundry wagons. It goes through the washing and sterilizing process and is issued again, a day or two later, to other troops.

Lice, known as "cooties" in the soldier's vocabulary, have been common to all armies in the war, but serious efforts to exterminate them were not made until they were found to be germ carriers. The new American plan, it is believed, will effectively rid the army of them. There are cases in the American army, during the fighting of the past summer where officers and men did not remove their clothing for as long a period as six weeks Under such circumstances lice ceased to be a terror, ceased even to be a subject of jest.

TRIUMPHANT MARCH GOES ON

American Troops Passing Increasing Bands of Liberated Prisoners.—Terms Being Carried Out.

With the American Army, Nov. 20.—The Third American army of occupation under change of orders resumed its triumphant march towards the Rhine today. Orders giving the men a rest today were countermanded at the last moment. The doughboys plan to make at least ten miles before nightfall. The American troops are passing increased bands of liberated prisoners seeking their way back to the Allied lines.

The second day of the advance served to confirm the belief at the American headquarters, however, that there was no thought of treachery in the minds of the German general staff and that the terms of the armistice will be faithfully carried out.

There have been a few isolated cases where surrendered materials have been damaged, but it is not thought such damage was wrought under orders of German commanders.

WILL GRAHAM IN BIG DRIVE

Is Nephew of Mrs. Lillian Murrin of This City.

R. W. Graham of Clyde, has received the following letter from his son, William, in active service in France which tells many interesting things about the big drive of the Yanks. In the letter dated October 20, he writes:

"This leaves me feeling O. K. and in dug out about forty feet underground, somewhere along the great western front. We are close to Verdun now, the old historic front of 1915. We are working in the front line trenches, trying to draw water and mud out of them It has rained all day today. I suppose you read in the papers about our recent drive. On the morning we started we hiked up to the front line during the night and got there about one o'clock, we stayed there until daybreak and all the time our artillery was sending over one of the hottest barrages the Dutch have ever received. We went forward about five o'clock and went over the top and then the fighting started. Believe "Bill" it was not a walk away for us like has been the case in other drives. The Huns had oodles of artillery and machine guns and there was never a minute of the six days and nights we advanced that he was not using them. We were fighting the Prussian Guards and they put up a stubborn resistance, but we drove them back every day and captured several hundred prisoners, machine guns and artillery. They kept their artillery in position and fired point blank at us with their big guns. I went right over the top of "Dead Man's Hill" and on into the Argonne Forest. We waded and swam a river the first morning and got soaked and hen it rained on us every night.

We never had anything to eat except what we carried in our packs and some stuff we captured from the Huns. We went so fast it was impossible to get rations to us. But when we were relieved and got back and had a hot meal you should have watched us eat. We have more to eat here lately than at any other time since we have been over. I never got a scratch or even caught cold but was about all in from work. I saw Henry McCann and he also came out O. K. He was the only one of the home boys I have seen. Our losses were pretty heavy, but I think most of them were slightly wounded or gassed. The battlefield was covered with all kinds of souvenirs but I did not have time for anything like that. There were German women killed or captured, so they say. I myself saw one German woman coming in with some prisoners, but at that time I supposed it was a man in disguise. The boys say they were helping the machine gunners.

Well, dad, when a fellow is in a place like this he doesn't know much news, it is not like being at home or even in some little village. We have practically been in action all the time for the last three months and been from one end of the line to the other. * * * I saw 150 aeroplanes in the air at the same time the other day. How is that for planes? * * *

James Heekin Says Germans Need Training in Marksmanship.

James Heekin, who is in active service in the 342d Field Artillery in France has written under date of October 6, the following letter to his home folks at Clyde.

"Am feeling fine, am getting fairly good eats and the work is not hard. So have no kick coming. In fact I am better satisfied here than when we were in Southern France. It is rather rainy here but we seldom do much work in the rain and if we do we have good rain coats, and a tin hat and good shoes, so we don't mind it. You see the life here it not near so hard as you would imagine it to be from reading about it in the papers.

Of course Fritz puts one over occasionally and sends one or two to the hospital but our casualties are extremely light. The bunch here is far from being a sad-eyed, gloomy bunch. You hear some fussing because Fritz s shooting at us but it is usually because he is shooting too close to our kitchen at mess time, or that we have to sit around with our gas masks on when it is time to feed. But at any other time we don't mind him practicing on us and he sure does need practice from the way his shells go wild. I expected to see some hard fighting at the front but it appears to be more of a foot race than a fight and there is enough Americans here now to whip the whole German army and then some if they would turn us loose.

We know now the end is near and we want to be sure we don't have to do this job over again. Am enclosing you a button off a German uniform and if it arrives safely I will tell you about it later. Am glad to know everything is going O. K. at home and when we know that all is well there we are contented with everything as it comes here."

DEDICATE NEW CHURCH, DEC. 1

Many From This City Will Attend Big Service at St. Joseph.—Dr. C. M. Chilton to Preside.

The formal dedication of the new First Christian church building at St. Joseph, of which the Rev. C. M. Chilton, a former pastor of the First Christian church of this city is pastor, will take place on Sunday, Dec. 1.

An excellent program has been prepared for the dedication and the most prominent speakers will be Dr. Burris A. Jenkins, pastor of the Linwood Boulevard Christian church, Kansas City and Dr. E. E. Voilette, pastor of the Independence Boulevard Christian church of Kansas City.

The new building was started in 1917 and is a magnificent edifice. The splendid pipe organ, one of the finest in the middle west, was designed and especially built for the church where it stands.

Dr. Chilton has been pastor of the church for the past twenty years and it is largely through his untiring efforts the new temple was erected. He will preside at the dedication ceremonies. Many people from this city are planning to attend the meeting.

Are Advertised Medicines Worthless?

There is no more reason to condemn all advertised medicines than there is to condemn all physicians or all druggists. Fakes there are in every trade, but they do not last long. Take a medicine like Lydia E. Pinkham's Vegetable Compound, the true test of its merit is the fact that for forty years, it has been relieving women of America from the worst forms of female ailments, constantly growing in popularity and favor, until it is now recognized from ocean to ocean as the standard remedy for female ills. Adv.

New Zealand, according to late official returns, had on April 30, last, 26,354,594 sheep, as compared with 25,270,386 at the same date in 1917. This gives an increase during the year of 1,084,208 sheep.

A dinner was served the wedding party after the ceremony. Mr. Daise is in the employ of a large electrical firm at Schenectady and he and his bride will be at home there after a few weeks. Ugly, Unsightly Pimples Are Signals of Bad Blood

Give Heed to the Warning.

Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, scaly eruptions and other skin disorders that burn like flames of fire.

Go to your drugstore, and get a bottle of S. S. S. today, and get rid of those unsightly and disfiguring pimples, and other skin irritations. And it will cleanse your blood thoroughly. If you wish special advice, you can write ... charge by writing Medical Director, 29 Swift ... Georgia.

HOW TO FIGHT

SPANISH INFLUENZA

By DR. L. W. BOWERS

Avoid crowds, coughs and cowards, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Ironic (iron tonic) tablets, which can be obtained at most drug stores, or send 10c to Dr. Pierce's Invalid's Hotel, Buffalo, N. Y., for trial package. Adv.

SON-IN-LAW GAVE HIM GOOD ADVICE

Cartwright Had Suffered for Twenty Years—Declares It Is Wonderful How Much Tanlac Has Benefitted Him.

"I suffered for twenty years, but since taking Tanlac, I believe I am as well and strong as I ever was," said C. F. Cartwright, living at Alton Park, Chattanooga, Tennessee.

"My head would be stopped up every night," he continued, "that I could hardly breathe and I had a choking feeling and shortness of breath that almost drove me wild. Indigestion worried me a good deal and I was so nervous and restless that I dreaded to see night come, for I couldn't sleep. I was so weak and rundown that I was unable to work for long at a time and no medicine I took seemed to do me any good.

"My son-in-law told me to try Tanlac, and it certainly was good advice, for I started taking it and it is wonderful how much it helped me. My appetite and digestion have improved and I am gaining right along. I sleep well at night and don't have the choking smothering spells like I used to. The only thing I regret is that I did not have this medicine years ago."

Tanlac is sold in Maryville by the Koch Pharmacy, and A. M. Colly, Conception Junction. Adv.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

OFFICIAL VOTE IN

THE NEXT STATE LEGISLATURE WILL BE DIVIDED

GRAVES MAJORITY 668

The Democrats Elected Eleven Members of Congress, the Republicans Five.—Lamkin Lost by 1,109.

Jefferson City, Nov. 20.—Judge Selden P. Spencer, Republican, defeated Joseph W. Folk, Democrat, for United States senator by a lead of 36,683 votes. Spencer carried the state outside of St. Louis by 893 and his St. Louis plurality was 35,790.

Judge Graves, Democrat, defeated Judge James T. Neville, Republican, 668 votes for judge of the supreme court.

Prof. Sam A. Baker, Republican, defeated Uel W. Lamkin, Democrat, for state superintendent of schools by 1,109.

The total vote on the state ticket follows:

For United States Senator — Folk, 265,997; Spencer, 302,680. For supreme judge—Graves, 286,853; Neville, 286,185. For state superintendent of schools—Lamkin, 285,648; Baker, 286,757.

The Democrats have elected eleven members of congress and the Republicans five. There were some close shaves in the congressional races. In the Seventh District, Major, Democrat, was elected over Salts, Republican, by only seventy-eight votes. In the Eighth District, Nelson, Democrat, won over Gentry, Republican, by 193. In the Sixteenth District, Ruby, Democrat, was elected over Shelton, Republican, by 170.

Other Democrats elected to congress are: Romjue, First District; Rucker, Second District; Alexander, Third District; Booher, Fourth District; Bland, Fifth District; Dickerson, Sixth District; Clark, Ninth District, and Igoe, Eleventh District.

The Republicans elected these congressmen:

Essen for the short term in the Tenth and Newton for the full term; Dyer, Twelfth; Rhodes, Thirteenth; Hayes, Fourteenth, and McPherson, Fifteenth.

Folk led his ticket in eight counties —Camden, Douglas, Howell, McDonald, Mercer, Newton, Putnam and Stone.

Judge Graves for judge of the supreme court, received 20,856 more votes than were cast for Folk, and 1,205 more than were cast for Lamkin. Lamkin polled 19,651 more votes than Folk.

The state legislature will be divided, the Democrats retaining control of the senate while the Republicans control the house. The senate evidently will stand twenty Democrats and fourteen Republicans, and the house seventy-five Republicans and sixty-seven Democrats.

AIRPLANES ACROSS OCEAN.

Special to The Democrat-Forum.

Paris, Nov. 20.—British aviators in Paris assert that the Atlantic has already been crossed by airplanes, although the information was kept a secret during the war. They declare the machines of the Handley-Page type flew from New Foundland to Ireland. There is no official confirmation of this statement.

Many breeders, says the Kansas City Star, disposed of their herds after America entered the war, due to their inability to keep their herdsmen, but now that prospects of early and permanent peace are in sight, there is a wild scramble for good registered cattle and all sales the country over are being largely attended.

FOURTH LOAN WAS BIGGEST

Greatest War Loan of Any Government Oversubscribed 16 Per Cent.—Fifth Loan in Spring.

Washington, Nov. 20.—Total subscriptions to the Fourth Liberty Loan were $6,989,047,000, the treasury department announced last night, after final tabulation had been completed. The over-subscription of $989,047,000 was 16.48 per cent. Every federal reserve district exceeded its allotted quota.

This makes the Fourth Liberty Loan by far the greatest war loan ever floated by this or any other government. For the fourth consecutive time in the last eighteen months of war the American people have given more than the government asked to finance the war program. Including the four Liberty Loans and war savings, the nation has raised $17,852,000,000 in popular loans, and this does not take into consideration over-subscriptions which were not accepted.

Bonds of the fifth war loan, to be offered probably in the spring, will be of short maturity, Secretary McAdoo announced today. This was interpreted as meaning five years or less. The secretary said it is impossible now to predict the size or time of flotation of future bond issues, necessary to cover the remaining expenditures growing out of the war, but added that it is "entirely clear that the moment had come when the interests of the government and the country would be best served by the issue of bonds of short maturities and that would be the policy of the treasury."

RED CROSS TO CALL THE ROLL

Christmas Membership Drive Will Occupy Week of December 16-23. Committee Getting Ready.

Maybe you were missed by the Liberty Loan committee, or perhaps you neglected to give to the United War Work Fund and still feel a patriotic desire to keep on doing your bit. There will be other opportunities, and you'll be summoned to respond to "roll call" by the Red Cross during the week of December 16-23. It's a month away yet, but lest you forget, the Christmas "roll call" will be undertaken in an effort to enlist the support of every man, woman and child in America. It's a big job, but the Red Cross is equal to it. The coming campaign is for members more especially than for money.

Membership dues are divided into several classes with annual members paying $1, magazine members $2 yearly, contributing members $5, sustaining members $10, life members $50 and patron members $100.

Joseph Jackson, Jr., is district chairman in charge of the work in Atchison, Nodaway, Gentry, Worth and Harrison counties; Roy J. Curfman is in charge of the "roll call" in Nodaway county. The township managers will be announced in a few days.

WILL ASK NEW LAWS

GARDNER TO URGE MONUMENTS TO SOLDIERS AND PERSHING

MEMORIAL TO WILSON

Appropriation for Home Guards and Council of Defense Woman Suffrage and Loyalty Measures Sought

Jefferson City, Nov. 20.—Governor Gardner has outlined his legislative program for the 1919 session of the state assembly. Two years ago the governor drove through his pet legislative hobbies, such as the law creating the tax commission now under fire by vigorous "trading" in state appointments. At the coming session, with the Republicans in control of the Missouri house and the Democrats in control in the senate, it looks as if all legislation, no matter what its source, will have to have merit to win through the two branches. The feeling seems to be both parties will be on their mettle in anticipation of the 1920 elections, and that the legislative leaders will be careful to cull out obnoxious measures as a matter of partisan safety.

Governor Gardner said today the state does not need additional revenue, and for that reason he will not ask for legislation along that line.

"The state's finances are in splendid shape," he said. "Next month the last ½ million of the $2,025,000 borrowed at the beginning of my administration to clean up the state's deficit will have been paid back."

Neither is any legislation regarding the penal institutions of the state required, in Gardner's opinion "the penitentiary being self sustaining," as he puts it. The state prison is making money, but stories coming from the penitentiary say the convicts are driven at top speed in the prison shops to earn enough money so that state assembly will not have to be asked, as it always has been by other administrations, to make up a deficit in operating expenses. In other years prison contractors imposed merciless tasks upon the prisoners.

Now the state is doing the driving and getting the money the convicts earn. It looks like a distinction without a difference.

According to the governor, the revenue measures passed in 1917 are yielding such great returns that the public schools of the state last year received $360,000 more than in any other year before, while next year they are slated for a full million dollars more. Allowance to Missouri University and the state normal schools also will be boosted in 1919, if Gardner's plans carry through the legislature, he said.

In the new legislation sought by the governor will be appropriations sufficient to spend $25,000 each on monuments in honor of the 135,000 Missouri boys who served the nation in the war, General Pershing and President Wilson. He also will ask for enough money to give every Missouri soldier and sailor a medal in expression of the state's gratitude and a law permitting soldiers and sailors to vote at all primary and general elections.

The governor's legislative program also includes these features: Proper appropriations for the home guard units; recognition and appropriations for the Missouri Council of Defense, which has been operating on a borrowed $100,000; a change in the state legislation preventing foreign born citizens from voting until they have received their final naturalization papers; a loyalty law to enable the state to assist the federal government in prosecuting disloyalty if there should be another war; a "work or fight" law to cover the same possibility; a constitutional amendment for woman's suffrage; a workmen's conpensation act; a children's code along the line advocated by the national welfare league as mentioned in The Star last Friday, and a revision of the civil and criminal code.

Governor Gardner also believes the legislature should give the people of the state an opportunity to vote on the question of a constitutional convention at which a modern constitution might be written to replace the ancient constitution now operative. In a new constitution the governor would separate the state's sources of revenue, giving the counties and cities all the income from personal and real estate taxes, while the state received the taxes from franchises, incomes and inheritances.

PLAN CELEBRATION

COM'L CLUB DIRECTORS DISCUSS HOMECOMING FOR SOLDIERS

WOULD ERECT MEMORIAL

An Effort Also Will Be Made To Secure Cannon and Other Souvenirs of the War.

That a fitting celebration be prepared on the return home of the Nodaway county boys who have been fighting the Hun in Europe and helping to win the war, was the unanimous opinion of the directors of the Commercial Club, at the regular weekly luncheon last night. The erection of a memorial in honor o fthe men who gave their services to the nation and in memory of those who will not return was also discussed and while no decision was arrived at, whatever is the final decision of the people will have the support of the members of the club.

Plans for the celebration when the boys come home will be worked out following suggestions which may be made by the public and will be held at a date to be decided on later.

The club directors will also make an effort to secure through some of the men in service souvenirs of the war in the shape of cannon and other field pieces.

TO ROUT THE ARMY LOUSE

"Cootie" Found To Be Carrier of the Trench Fever and Other Diseases Are Due To Go.

Paris, Oct. 28.—(By Mail).—The American army in France is to be the most sanitary in the world Since the louse has been unbearded as the carrier of trench fever and other investigation has proven that scabies—the seven years itch of Bible fame—and other skin diseases are conspicuously reduced by cleanliness, it has been decided that clean underclothes and frequent baths will make the Yanks immune from many of the ills common to the soldier in France. Hence General Pershing has ordered that his army be equipped with efficient facilities to insure every man in the army a change of clothing and a bath at least and, if necessary, twice a week.

The soldiers, back from the front line, are received in squads. They disrobe and turn in their clothing. Then they spend half a minute under a hot shower, half a minute under a cold one, two minutes soaping their bodies and then another half a minute under a warm shower for rinsing. They emerge to receive clean underwear, sox and shirt and, if necessary a clean uniform. The whole process takes three and one-half minutes plus time for dressing and undressing.

The underwear the men leave when entering goes to the laundry wagons. It goes through the washing and sterilizing process and is issued again, a day or two later, to other troops.

Lice, known as "cooties" in the soldier's vocabulary, have been common to all armies in the war, but serious efforts to exterminate them were not made until they were found to be germ carriers. The new American plan, it is believed, will effectively rid the army of them. There are cases in the American army, during the fighting of the past summer where officers and men did not remove their clothing for as long a period as six weeks Under such circumstances lice ceased to be a terror, ceased even to be a subject of jest.

TRIUMPHANT MARCH GOES ON

American Troops Passing Increasing Bands of Liberated Prisoners.—Terms Being Carried Out.

With the American Army, Nov. 20.—The Third American army of occupation under change of orders resumed its triumphant march towards the Rhine today. Orders giving the men a rest today were countermanded at the last moment. The doughboys plan to make at least ten miles before nightfall. The American troops are passing increased bands of liberated prisoners seeking their way back to the Allied lines.

The second day of the advance served to confirm the belief at the American headquarters, however, that there was no thought of treachery in the minds of the German general staff and that the terms of the armistice will be faithfully carried out.

There have been a few isolated cases where surrendered materials have been damaged, but it is not thought such damage was wrought under orders of German commanders.

WILL GRAHAM IN BIG DRIVE

Is Nephew of Mrs. Lillian Murrin of This City.

R. W. Graham of Clyde, has received the following letter from his son, William, in active service in France which tells many interesting things about the big drive of the Yanks. In the letter dated October 20, he writes:

"This leaves me feeling O. K. and in dug out about forty feet underground, somewhere along the great western front. We are close to Verdun now, the old historic front of 1915. We are working in the front line trenches, trying to draw water and mud out of them It has rained all day today. I suppose you read in the papers about our recent drive. On the morning we started we hiked up to the front line during the night and got there about one o'clock, we stayed there until daybreak and all the time our artillery was sending over one of the hottest barrages the Dutch have ever received. We went forward about five o'clock and went over the top and then the fighting started. Believe "Bill" it was not a walk away for us like has been the case in other drives. The Huns had oodles of artillery and machine guns and there was never a minute of the six days and nights we advanced that he was not using them. We were fighting the Prussian Guards and they put up a stubborn resistance, but we drove them back every day and captured several hundred prisoners, machine guns and artillery. They kept their artillery in position and fired point blank at us with their big guns. I went right over the top of "Dead Man's Hill" and on into the Argonne Forest. We waded and swam a river the first morning and got soaked and hen it rained on us every night.

We never had anything to eat except what we carried in our packs and some stuff we captured from the Huns. We went so fast it was impossible to get rations to us. But when we were relieved and got back and had a hot meal you should have watched us eat. We have more to eat here lately than at any other time since we have been over. I never got a scratch or even caught cold but was about all in from work. I saw Henry McCann and he also came out O. K. He was the only one of the home boys I have seen. Our losses were pretty heavy, but I think most of them were slightly wounded or gassed. The battlefield was covered with all kinds of souvenirs but I did not have time for anything like that. There were German women killed or captured, so they say. I myself saw one German woman coming in with some prisoners, but at that time I supposed it was a man in disguise. The boys say they were helping the machine gunners.

Well, dad, when a fellow is in a place like this he doesn't know much news, it is not like being at home or even in some little village. We have practically been in action all the time for the last three months and been from one end of the line to the other. * * * I saw 150 aeroplanes in the air at the same time the other day. How is that for planes? * * *

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

A FOOT-RACE—NOT FIGHT

James Heekin Says Germans Need Training in Marksmanship.

James Heekin, who is in active service in the 342d Field Artillery in France has written under date of October 6, the following letter to his home folks at Clyde.

"Am feeling fine, am getting fairly good eats and the work is not hard. So have no kick coming. In fact I am better satisfied here than when we were in Southern France. It is rather rainy here but we seldom do much work in the rain and if we do we have good rain coats, and a tin hat and good shoes, so we don't mind it. You see the life here it not near so hard as you would imagine it to be from reading about it in the papers.

Of course Fritz puts one over occasionally and sends one or two to the hospital but our casualties are extremely light. The bunch here is far from being a sad-eyed, gloomy bunch. You hear some fussing because Fritz s shooting at us but it is usually because he is shooting too close to our kitchen at mess time, or that we have to sit around with our gas masks on when it is time to feed. But at any other time we don't mind him practicing on us and he sure does need practice from the way his shells go wild. I expected to see some hard fighting at the front but it appears to be more of a foot race than a fight and there is enough Americans here now to whip the whole German army and then some if they would turn us loose.

We know now the end is near and we want to be sure we don't have to do this job over again. Am enclosing you a button off a German uniform and if it arrives safely I will tell you about it later. Am glad to know everything is going O. K. at home and when we know that all is well there we are contented with everything as it comes here."

DEDICATE NEW CHURCH, DEC. 1

Many From This City Will Attend Big Service at St. Joseph.—Dr. C. M. Chilton to Preside.

The formal dedication of the new First Christian church building at St. Joseph, of which the Rev. C. M. Chilton, a former pastor of the First Christian church of this city is pastor, will take place on Sunday, Dec. 1.

An excellent program has been prepared for the dedication and the most prominent speakers will be Dr. Burris A. Jenkins, pastor of the Linwood Boulevard Christian church, Kansas City and Dr. E. E. Voilette, pastor of the Independence Boulevard Christian church of Kansas City.

The new building was started in 1917 and is a magnificent edifice. The splendid pipe organ, one of the finest in the middle west, was designed and especially built for the church where it stands.

Dr. Chilton has been pastor of the church for the past twenty years and it is largely through his untiring efforts the new temple was erected. He will preside at the dedication ceremonies. Many people from this city are planning to attend the meeting.

Are Advertised Medicines Worthless?

There is no more reason to condemn all advertised medicines than there is to condemn all physicians or all druggists. Fakes there are in every trade, but they do not last long. Take a medicine like Lydia E. Pinkham's Vegetable Compound, the true test of its merit is the fact that for forty years, it has been relieving women of America from the worst forms of female ailments, constantly growing in popularity and favor, until it is now recognized from ocean to ocean as the standard remedy for female ills. Adv.

New Zealand, according to late official returns, had on April 30, last, 26,354,594 sheep, as compared with 25,270,386 at the same date in 1917. This gives an increase during the year of 1,084,208 sheep.

HOW TO FIGHT

SPANISH INFLUENZA

By DR. L. W. BOWERS

Avoid crowds, coughs and cowards, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anu-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Ironic (iron tonic) tablets, which can be obtained at most drug stores, or send 10c to Dr. Pierce's Invalid's Hotel, Buffalo, N. Y., for trial package. Adv.

SON-IN-LAW GAVE HIM GOOD ADVICE

Cartwright Had Suffered for Twenty Years—Declares It Is Wonderful How Much Tanlac Has Benefitted Him.

"I suffered for twenty years, but since taking Tanlac, I believe I am as well and strong as I ever was," said C. F. Cartwright, living at Alton Park, Chattanooga, Tennessee.

"My head would be stopped up every night," he continued, "that I could hardly breathe and I had a choking feeling and shortness of breath that almost drove me wild. Indigestion worried me a good deal and I was so nervous and restless that I dreaded to see night come, for I couldn't sleep. I was so weak and rundown that I was unable to work for long at a time and no medicine I took seemed to do me any good.

"My son-in-law told me to try Tanlac, and it certainly was good advice, for I started taking it and it is wonderful how much it helped me. My appetite and digestion have improved and I am gaining right along. I sleep well at night and don't have the choking smothering spells like I used to. The only thing I regret is that I did not have this medicine years ago."

Tanlac is sold in Maryville by the Koch Pharmacy, and A. M. Colly, Conception Junction. Adv.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Guynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

Frank Bebb, Carpenter, Wyoming
